7. Supplier adherence to our values and ethics

We have zero tolerance to slavery and human trafficking. To ensure that all those in our supply chain and contractors comply with our values we require all suppliers to complete a supplier questionnaire and agree to our sub contract Terms and Conditions. Any breach of this policy by an Employee will generally be treated as gross misconduct and may result in dismissal without notice. We may terminate our relationship with individuals and organisations working on our behalf who do not comply with this policy.

8. Training

We ensure all staff involved within the supply chain have an understanding of the risks of modern slavery and human trafficking in our supply chains and our business which will include:

- Our business's purchasing practices, which influence supply chain conditions and which should therefore be designed to prevent purchases at unrealistically low prices, the use of labour engaged on unrealistically low wages or wages below a country's national minimum wage, or the provision of products by an unrealistic deadline;
- How to assess the risk of slavery and human trafficking in relation to various aspects of the business, including resources and support available;
- How to identify the signs of slavery and human trafficking;
- What initial steps should be taken if slavery or human trafficking is suspected;
- How to escalate potential slavery or human trafficking issues to the relevant parties within the organisation;
- What steps the organisation should take if suppliers or contractors do not implement anti-slavery policies in high-risk scenarios, including their removal from the organisation's supply chains.

9. Our effectiveness in combating slavery and human trafficking

We use the following key performance indicators (KPIs) to measure how effective we have been to ensure that slavery and human trafficking is not taking place in any part of our business or supply chains:

- Sub contract costs review to ensure that costs agreed do not fall below an agreed minimum level
- Review of job costings exceptions report to check for any cost abnormalities.
- Sub-contractor Management information to ensure receipt of specific information before a job commences (ie safety policy receipt, insurance, signed contract)
- Director committee meetings to review all aspects of our supply chain suitability.

10. Further steps

Following a review of the effectiveness of the steps we have taken to date to ensure that there is no slavery or human trafficking in our supply chains we are committed to further steps during 2021-2022:
